

Stompin Donor Form

Stompin creates an environment in which young people grow, as individuals and as citizens, through their connection with dance.

Working with young people in a small regional community in Launceston, Tasmania, we develop artists, audiences and community through creating, curating and presenting unforgettable performance experiences.

Unique to Australia, Stompin's performance culture unites non-professional dancers with professional artists to create and present signature works in ordinary and extraordinary places.

Stompin was founded in 1991 and receives necessary funding from several sources locally and from Arts Tasmania and Australia Council for the Arts but we need additional support for the expansion we see as vital to the growth of the company.

Please become connected to **Stompin** by making a donation - then when you attend a performance you will feel pride in having helped make it happen.
